

CARFAX VIN Alerts

Solve more crimes with this free tool that monitors VINs 24/7 and notifies you when new data on a vehicle is uploaded.

Set an alert for a VIN of interest and we'll send you an instant notification when we obtain new information on the vehicle.

Adding a VIN Alert is quick and easy. Simply click the "VIN Alert" button at the top of each VHR on your desktop or mobile app. View your VIN Alerts to see if other agencies are tracking the same vehicle to collaborate on an investigation.

Case Solved: Missing Person Tool Used: VIN Alert

An investigation of a missing person led police to believe that it was a possible homicide and that the vehicle of interest in the case was disposed of or hidden by the suspect. After creating a VIN Alert, investigators received notification that the vehicle had been sold and re-registered in Virginia a few weeks later. The vehicle's new owner was located, and the vehicle was impounded.

You'll also get free access to the full suite of CARFAX for Police Investigative Tools powered by the world's largest vehicle history database of 29 billion records.

CARFAX High Mileage Alerts

Solve more crimes with free access to a nationwide list of potentially fraudulent vehicles.

We searched our proprietary vehicle database of more than 29 billion records to identify recent vehicles that appear on the road with high mileage and no previous history. Indicators of fraud are vehicles without early title, inspection, and sales records.

High Mileage Alerts are updated monthly and can fuel your investigations to identify vehicle with suspicious history in your jurisdiction.

Case Solved: Fraud & Auto Theft **Tool Used: High Mileage Alert**

After conducting a High Mileage Alert search, a Maryland police department opened an investigation on a flagged vehicle. After inspecting titles given to DMV, they discovered fraudulent and forged titles in multiple states. Inspection of the initial vehicle resulted in a re-plated stolen vehicle and lead to an arrest.
